2025 Junior Research Analyst Internship & Full-Time Research Analyst Program

About the Internship

The Alta Fox Junior Research Analyst Internship is the primary recruiting funnel into our Full-Time Research Analyst Program. Interns will receive a subset of the full-time training program, be exposed to all aspects of investing at the firm and will have an opportunity to earn a full-time offer. **This program offers more direct investing training experience than offered by an investment banking program for individuals who desire to accelerate their buyside career.** The internship will be held at our headquarters in downtown [Fort Worth, TX, the fastest-growing large city in the U.S.](#)

About the Full-Time Two-Year Research Analyst Program

The Alta Fox Research Analyst Program is a two-year entry program for candidates with a passion for investing. You will be provided individualized training in all aspects of fundamental research analysis directly from the firm's most senior investment professionals. **This is a rare opportunity to jump directly into buyside investing directly out of undergrad and receive elite financial training.** Unlike traditional investment banks, we do not have "target schools." The ideal candidate has a strong academic record, a deep passion for investing, and is ultra-competitive in a positive team context.

About the Role

As a Research Analyst at Alta Fox, you will play a critical role in supporting our investment strategies and decision-making processes. This position is ideal for applicants that are passionate about investing, possess strong analytical skills, and are eager to learn and grow in a dynamic investment environment. At an investment bank, it would be common for an associate to prepare generic PowerPoint slides for a management meeting they are unlikely to be invited to. At Alta Fox, research analysts will be challenged to think creatively, will be given the opportunity to lead a variety of meetings in the due diligence process, and ultimately have a direct impact on our results.

Key Responsibilities

- **Company and Industry Research:** Conduct in-depth research on potential investment opportunities, industry sectors, and market conditions. This includes in-depth analysis of company and regulatory filings, competitor analysis, and interviewing management teams and industry-experts.
- **Modeling:** Build and maintain financial models to evaluate the potential risks and returns of various investment options, helping to identify attractive opportunities.
- **Due Diligence:** Support due diligence efforts by gathering and organizing information on prospective investments, including company profiles, competitive landscapes, and regulatory considerations.

Qualifications

- Anticipated Graduation in 2026
- Minimum GPA of 3.50
- Passion for investing and public markets
- Proficiency in Microsoft Excel and familiarity with financial modeling
- Excellent communication skills, both written and verbal
- Attention to detail and the ability to work effectively in a collaborative team environment

Recruiting Timeline:

- The application will open on January 22, 2024. Interviews will take place on a rolling basis starting in February with offers extended based on the evaluation of applicants' interviews. We encourage you to apply as soon as possible.

How to Apply:

- Submit a cover letter, resume, most recent transcript, and stock idea write-up (no more than two pages) to: recruiting@altafoxcapital.com with the subject line: "2025 Junior Research Analyst Internship".
